East London Aquarists' and Pondkeepers' Association

Affiliated to the
FEDERATION OF BRITISH AQUATIC SOCIETIES

JUNE, 1952

Dear Members and Visitors,

This is our ELEVENTH ANNUAL EXHIBITION and it might well have been our twentieth had not the second World War intervened, and curtailed the activities of the Association.

Does this convey anything to my reader? Personally I think it does, and according to the measure of your interest in this hobby.

Firstly - let me have a word with the Visitor who is only slightly interested in fish and is not particular if they are Tropical or Goldfish or even the common river fishes which abound so freely in this country.

Nearly twenty-one years ago this Association was formed to encourage the study of keeping and breeding fishes in aquariums in the homes or in greater quantities in fish houses. From the handful of men who had the courage to make this venture, this Association has grown until at one time our membership was over two hundred strong. At our bi-weekly meetings held at the Headquarters, Ripple School, Barking, the members have the opportunity of hearing the best lectures in this country on all subjects appertaining to the hobby, they also have a part of the evening set aside for the asking of questions and the giving of advice on ailments and cures of their fishes. By this knowledge gained they are able to retain the high standard of their hobby and in this way enjoy "Fish Keeping" to the full.

By this time, I am sure our partly interested friend, should he or she have decided to go more deeply into this hobby, have made up their minds that the best way to get good sound advice is to join one of the good Aquatic Societies in their neighbourhood.

To our Members, all I have said is common knowledge which I am sure they appreciate and to many of them it has been the means of gaining many high awards in this Exhibition. If you have not exhibited this year get your fish well primed up for our big "Coming-Of-Age" Exhibition next year.

Good "Fish Keeping" to you all.

Yours sincerely,

B. HOWE,

Exhibition Organizer.

President
C. W. G. CHEAD, Esq., F.R.H.S., F.Z.S.

RIPlpleway 2658

The Association are indebted to the following gentlemen who have formed our panel of judges:

W. G. CHEAD, Esq., F.R.H.S., F.Z.S.

W. P. BRADLEY, Esq. (P.P.)

Captain I. C. BETTS, M.B.E., A. Inst. S.P.

R. G. MEALAND, Esq.

C. J. SAUNDERS, Esq. B.Sc. Ed.Dip.

H. RUSSELL-HOLLAND, Esq.

H. S. WHITE, Esq.

S. H. MOORE, Esq.

The Exhibition of reptiles and amphibians is by Mr. Leutscher, the well-known member of the British Herpetological Society. It is only a person with the skill and the knowledge of his subject, such as Mr. Leutscher has at his command, that enables him to keep and maintain such a fine collection of this kind. We are sure the public will appreciate how fortunate we are to have the services of this gentleman, who is willing to answer and advise any interested spectator during the Exhibition.

The way to 'build-up'

a FISH
SPRATT'S
feed
SPRATT'S

SPRATT'S AQUARIUM FISH FOOD

A properly balanced food for general use, suitable for Goldfish of all varieties up to 4", and Carp, Orfe, Rudd, Tench, Roach, etc. For larger fishes give Spratt's Pond Fish Food.

SPRATT'S POND FISH FOOD

Fine Grade for fish of 4" to 6"; Medium grade for larger fish. A nourishing diet suitable for all cold water fishes.

SPRATT'S "GLASOL"

The simplest, quickest and safest way to make a cement pond waterproof is to treat it with Spratt's "Glasol." Supplied ready for use, "Glasol" is simply applied with a soft brush, rendering the cement non-porous and watertight in under the week. Half gallon can treats 25 square feet.

SPRATT'S
POND & AQUARIUM FISH FOODS

*Write for SPRATT'S 36 page book "Modern Fishkeeping" dealing with all aspects of fishkeeping in pond and aquarium, including special chapters on pond construction, with layout for typical Garden Pond, price 12d. post paid.
Price lists of Fish Foods and Aquatic Plants for Pond and Aquarium, also Accessories for cold and tropical aquariums, sent free on application to—
