EDITORS WFO EN.

Dear all,

I am sorry that we did not print a Review in July. This was due to increase cost of paper and printing and lack of news or articles from you the members for inclusion in it. If I do not get a few more items for the next Review it may only appear 2 or 3 times next year.

IMPORTANT NOTICE.

The Christmas Social is on December 8th a Saturday evening from 7.00pm till 11.45pm. at the Cellar of the Queen Charlotte the same as last year. The price this year is £2.00 per head. Tickets will be available from September 12th till November 14th. We have 80 tickets so it will be first come first served and it is money with ticket.

Jim Gay.

LAMPROLOGUS BRICHARDI

Keith Grubb.

This cichlid, named after Frenchman Raul Brichard, comes from Lake Tanganyika. It grows to about 4" and is very slow growing, it suits our area as it likes fresh hard water at 75 - 78F.

They are hard to sex out as young fish and is best if 3 or 4 are bought to enable them to pick their own mates, they usually then bully the others and the male can be very vicious especially at breeding time and they are best kept as a pair in separate tanks.

They lay eggs usually on a previously cleaned stone. The eggs will hatch in about 30 - 36 hours depending on the temperature, and the female then hides her brood in hollows in the gravel or behind rocks, allowing them to swim freely after 6 or 7 days. The best food for the young is newly hatched brine shrimp, the adults will eat dried food, but much prefer live food or small amount of beef heart, also squashed peas and spinach in small amounts will be accepted.

I think this a very attractive cichlid and also interesting fish.

# Your aquarium may seem like a tropical paradise but it could be hell to an angel fish.

Successfully keeping tropical fish is largely a matter of maintaining natural conditions in the aquarium. So it is important you know precisely what you're doing. Practical Fishkeeping is all about breeding and keeping fish alive and in perfect health under ideal conditions. Pick up your copy today. It could make the difference between heaven and hell.

At your newsagent
